# **A portable emergency energy storage power supply**

## Overview

---

What is a portable power supply?

Portable and compact Portable power supply is compact and lightweight design is perfect for indoor and outdoor activities. As an emergency power source backup at home for power outage If you are camping, it can as a light in the dark, charge your MP3, laptops, Kindle, Camera and so on.

Why should you choose a portable power station?

If natural disaster is unexpected to happen, such as flood, earthquake, seaquake, etc, then local electrical system will be destroyed, portable power station is the best choice at this moment. if you are enthusiastic in outdoor tour, emergency power battery station will be useful in every where.

Is S5 4000W portable power station safe?

READY FOR ANY EMERGENCY: S5 4000w portable power station is equipped with less than 20ms EPS to ensure the safe operation of PS5, CPAP, fish tank, refrigerator, self-service feeder or desktop computer when sudden power failure, offering 24/7 protection for sensitive electrical devices against power disturbances or grid failure.

What is the power output of a portable power station?

Power output of a portable power station refers to the maximum amount of energy the station delivers to the attached devices. Power output ratings are available in terms of wattage. How many watts a device will deliver explains how much power it can produce. The more watts a device can produce, the larger the electrical component it can run.

What is the best portable power station?

The Goal Zero Yeti 1500X Portable Power Station (updated model from the 1000X we tested) remains our favorite thanks to its ample power and potential to supply even more backup power by connecting additional Yeti

batteries. Not only can it power tablets, phones, and flashlights, but it also powers appliances and power tools.

How long can a power station Power a device?

Both terms explain how long the power station can power a device of a specific size. A power station with a 2,000-milliamp-hour battery can charge or power a device that draws 200 millilamp-hours for 10 hours. A station with 1,000 watt-hours can power a 1-watt device for 1,000 hours, or a 400-watt device for 2.5 hours.

## A portable emergency energy storage power supply

### Lithium battery parameters

Product capacity: 100Ah

Product size: 135\*197\*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5
