# **Bad news for the energy storage sector**

## Overview

---

The European Commission has cleared the formation of a joint venture between Japan's Mitsubishi and Germany's Bosch aimed at providing battery-related services for electric vehicles, signaling regulatory support for the continent's accelerating EV ecosystem. Denmark's regional operator Lokaltog is.

The European Commission has cleared the formation of a joint venture between Japan's Mitsubishi and Germany's Bosch aimed at providing battery-related services for electric vehicles, signaling regulatory support for the continent's accelerating EV ecosystem. Denmark's regional operator Lokaltog is.

Just a few years ago, China's energy-storage industry was riding high on a sugar rush of subsidies, soaring demand, and sky-is-the-limit optimism. But this is 2025, and China is waking up with a tariff-sized headache and a hangover from its own price war. At the heart of the drama is the battery.

While the deployment of energy storage systems across the U.S. has grown dramatically in the U.S. in recent years, they are facing resistance in some communities where residents have voiced concerns over the risk of energy storage system fires and the amount of space required to install storage.

### Energy Storage News, Innovations & Updates

Get insights into energy storage technologies, battery advancements, and grid solutions shaping the future of clean energy at Renewable Wire.

### How the U.S.-China Trade War Could Derail the ...

A recession in 2025 would confirm that projection, but not in a way that gets the world closer to net-zero emissions--it would just make it harder to build a decarbonized economy. The trade war of 2025 is bad ...

### Is Azelio's abrupt bankruptcy a bad omen for... , Canary Media

Azelio, a Swedish startup that aimed to supply thermal storage technology to long-duration energy storage applications, filed for bankruptcy last month. It's the most recent ...

### Top Energy Storage News Highlights and Insights for April 2025

On April 25, BYD and Haibo Si Chuang were selected as candidates for the procurement of a

**50MW/100MWh** energy storage system for the China Resources Power's Nansha ...

### [News Archives](#)

4 ???· Major US utility company Duke Energy has submitted its final license application to the Federal Energy Regulatory Commission (FERC) to extend operation at the Bad Creek Pumped Storage Hydroelectric Station ...

### [Industry Updates Archive](#)

Trina Storage has shipped the first 1.2GWh batch of its self-developed Elementa 2 BESS to Chile, marking its largest overseas standalone energy storage project to date and ...

### **Trump Tariffs Threaten Spread of Big Batteries on the Power Grid**

The US is the second-largest installer of energy storage capacity behind China, while nations including India, Germany, Spain are also expected to drive growth in the sector ...

## How Trump's Tariffs Could Hobble the Fastest ...

Across the country, companies have been installing giant batteries that help them use more wind and solar power. That's about to get much harder.

## China's troubled energy-storage sector reels from price war, tariff

China's energy-storage industry is facing a challenging outlook this year due to the escalating US-China trade war and weaker government support, prompting one industry ...

## Energy Storage News , Latest renewable energy ...

The most important energy storage, battery, and electric vehicle news, events, and technology product update are exclusively from ETN News.

## [Industry Updates Archive](#)

Trina Storage has shipped the first 1.2GWh batch of its self-developed Elementa 2 BESS to Chile, marking its largest overseas standalone energy storage project to date and ushering in a new era of ...

## Big Tech drives renewable PPA spike and more ...

This round-up brings you the key stories from the energy sector over recent weeks. Top energy news: Tech sector drives renewable power purchase agreement spike; EU proposes gas storage rule ...

## China's Energy Storage Giants Face a Hard Reset

Just a few years ago, China's energy-storage industry was riding high on a sugar rush of subsidies, soaring demand, and sky-is-the-limit optimism.

## Here's the good and bad news on the US clean ...

In the last decade, renewable energy has been the main bucket of energy transition spending. Ever-cheaper solar and wind power took the lion's share of new generation built over that time, shifting the ...

## Energy Storage: Opportunities and Challenges of ...

Purely thermal energy storage is outside of the scope of this study, however it is important to note that improved thermal energy management in domestic, commercial and industrial applications ...

## Energy Storage Proposals Face Pushback from Some Communities

Energy storage projects are facing increasing scrutiny from local residents in parts of the U.S. Residents have voiced concerns about fires at energy storage facilities - in ...

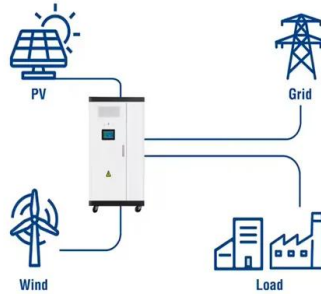

## Renewables revolution: The good and the bad ...

Green Eco-Innovation Renewables revolution: The good and the bad news from the IEA's latest wind and solar stocktake The sun sets behind high tension power lines in Los Angeles. September 2024.
