# Bangladesh honeycomb energy storage

## Battery String-S224

- 1C Charge/Discharge
- Easy configuration and maintenance
- Power supply can be single battery string or parallel battery strings

## Overview

---

Can energy storage be used in Bangladesh?

Concluded in May 2023, the assignment assessed available energy storage technologies, evaluated the role of energy storage in the current grid conditions, identified potential storage locations, analysed energy storage requirements under variable renewable energy (VRE) integration, and developed a roadmap for energy storage in Bangladesh.

What can be done about grid connected energy storage in Bangla-Desh?

Limited experience and knowledge of grid connected energy storage in Bangladesh. Early-stage pilot programmes such as the planned 2MW grid connected BESS funded by the Asian Development Bank (ADB) would further support capacity building and knowledge transfer. 3.3.

What does Towfiq-e-Elahi Chowdhury want to know about battery energy storage?

Towfiq-e-Elahi Chowdhury expressed his interest in the study and shared the wish to know more about the existing and perspective battery energy storage applications in other countries and Europe. He further encouraged the EU and its member states to invest in other renewable energy applications in Bangladesh.
