Bnp paribas energy storage supply

Overview

Does BNP Paribas provide financing for new oil and gas fields?

BNP Paribas will no longer provide any financing dedicated to the development of new oil and gas fields regardless of the financing methods. In the oil sector, BNP Paribas will reduce its financing of oil exploration and production by 80% by 2030 as follows:.

How does BNP Paribas contribute to the energy transition?

The park provides electricity to around 700,000 people, contributing significantly to the French energy transition. In the United States, BNP Paribas plays a key role in financing SunZia, a major project combining a 3.5 GW wind farm in New Mexico and a 550-mile high-voltage transmission line connecting Arizona.

Is BNP Paribas a good investment?

BNP Paribas, which was ranked No. 1 worldwide for sustainable bonds and loans for the 2nd consecutive year by Dealogic, with \$69.2 billion in 2024, is a driving force in the financing of renewable energy infrastructure, particularly in offshore and onshore wind, solar, low-carbon hydrogen and energy storage infrastructure.

Does B NP Paribas support a low-carbon economy?

B NP Paribas is stepping up its support for the energy transition by massively redirecting its financing towards a low-carbon economy. With its leadership in sustainable finance, the Group plays a key role in financing renewable energies and supporting its clients towards low-carbon solutions.

Will BNP Paribas reach 80% low-carbon energy?

In 2023, a commitment was made to reach 80% low-carbon in the Group's financing for energy production. This target has now been advanced by two years to 2028. For 2030, the goal is now 90%. When we look back at 2012, the

share of low-carbon energy in BNP Paribas' financing for energy production was around 10%.

How has BNP Paribas shifted its energy financing activities?

BNP Paribas has already largely shifted its energy financing activities. At year-end 2022, low-carbon energies accounted for nearly 60% of BNP Paribas' total financing of the energy sector.
