What is Botswana Mining & Energy Conference & Expo?

Botswana Mining & Energy Conference and Expo is the SADC region's largest and only international mining, energy, investment, power & construction Expo. Held annually in Gaborone since 2023, attendees can expect to learn from leading industry experts on topics critical to mining, energy and renewables.

Will Botswana become Africa's solar energy powerhouse in 2024?

With the newly elected government in 2024, there is certainly momentum for change and for the country's economy to not just rely on its established diamond industry. Beyond mining, Botswana is also positioning itself to be Africa's solar energy powerhouse and for renewables to be 30% of Botswana's energy mix by 2030.

Will global mining powerhouses enter Botswana?

The entry of global mining powerhouses into Botswana, such as BHP's \$25 million investment into copper projects in Botswana, is a step in the right direction and time will tell if such global investments will be sustained and how much it will benefit Botswana citizens.

Are there opportunities to develop Botswana's natural resources?

Opportunities are thus abundant for investors and companies interested to develop Botswana's abundant natural resources. Secure your stand here or sign up as delegate here. Group bookings are entitled for discounts of up to 20%.

Is the mining industry a major economic driver for Botswana?

Source: BME2025. The mining industry has been and will continue to be a major economic driver for Botswana. However, there needs to be a coordinated effort to streamline policies and regulations, taking into account feedback from stakeholders on the ground, to attract local and international

investments.
