## Overview

---

On May 7, CATL launched the TENER Stack at the EES Europe in Munich, marking the unveiling of the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution. Shanghai (Gasgoo)- On May 7, CATL launched the TENER Stack at the EES Europe in Munich, marking the unveiling of.

On May 7, CATL launched the TENER Stack at the EES Europe in Munich, marking the unveiling of the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution. Shanghai (Gasgoo)- On May 7, CATL launched the TENER Stack at the EES Europe in Munich, marking the unveiling of.

On April 9, CATL unveiled TENER, the world's first mass-producible energy storage system with zero degradation in the first five years of use in Beijing, China. Featuring all-round safety, five-year zero degradation and a robust 6.25 MWh capacity, TENER will accelerate large-scale adoption of new.

CATL's new Tener Stack energy storage system breakthrough can supply electricity from renewables to the average home for up to six years, in the first five of which it will undergo zero capacity degradation. It can also charge 150 electric vehicles before its batteries run out. Daniel Zlatev.

Global battery giant CATL has raised the bar for large-scale energy storage solutions with the debut of its TENER Stack, the world's first 9MWh ultra-high-capacity system set for mass production by 2025. Unveiled ahead of ees Europe 2025, this cutting-edge technology promises to reshape how.

By harnessing the natural abundance of sodium, an element found in something as common as table salt, CATL has slashed energy storage costs to an unprecedented \$10 per kilowatt-hour. This innovation has the potential to transform not just electric vehicles (EVs) but also renewable energy systems. What is CATL Tener energy storage?

Per Amanda Xu, CTO ESS & President of ESS Europe CATL: CATL has always been at the forefront of the energy transition. To meet the expectation of a

BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution.

Is CATL a good battery company?

CATL, the world's leading battery manufacturer, continues proving why it's the best with the biz. Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers breakthroughs in storage capacity, deployment flexibility, safety, and transportation efficiency.

Does CATL have a warranty on a tener system?

This allowed CATL to dole out 5-year zero degradation and 20-year overall warranties with the Tener system for the first time, too. CATL calls the new energy storage system solution Tener Stack, and it comes with the same zero capacity degradation warranty as its 6.25 MWh predecessor.

How many EVS can a CATL power?

To put the 9 MWh energy storage capacity in perspective, the 20-foot container is capable of powering the average single family home for up to six years, for five of which CATL guarantees that no capacity degradation will occur in the system's cells. It can charge up to 150 EVs with the current average battery size of electric cars, too.

Why is CATL a leader in battery manufacturing?

As the undisputed global leader in battery manufacturing, CATL is constantly looking for new and exciting technologies to stay ahead of its competitors. Those innovations span nearly all mobility segments, from electric vehicles to electric planes, chargers, battery swap stations, and energy storage systems.

Is CATL Tener stack ESS suitable for urban deployment?

The thermal management system is at the top of the container to save on land space and decrease thermal radiation. The resulting noise is now kept to 65 dB at a distance of three feet, making CATL's Tener Stack ESS suitable for urban deployment, too.

## Catl new energy storage

### CATL unveils 9 MWh TENER Stack energy ...

In April 2024, CATL unveiled a 6.25 MWh capacity energy storage system called TENER, promising zero degradation in the first five years of use--the first of its kind.

### Tesla, CATL, Energy Dome Lead 2024 Energy ...

CATL's TENER System CATL used 2024 to release its TENER system, the world's first grid-scale energy storage solution with zero degradation over five years. The TENER system features a 6.25 MWh ...

#### DETAILS AND PACKAGING

### CATL unveils 587 Ah battery energy storage cell

China's CATL, the world's leading battery maker, has officially showcased its new 587 Ah high-capacity battery cell, which will be integrated into its next-generation TENER energy storage

### CATL unveils mass-producible 9MWh energy storage system ...

On May 7, CATL launched the TENER Stack at the EES Europe in Munich, marking the unveiling of

the world's first mass-producible 9MWh ultra-large-capacity energy ...

## CATL Unveils TENER Smart Storage Platform to Set a New

...

On April 10, 2025, at the 13th Energy Storage International Conference and Expo (ESIE 2025), CATL launched its smart energy storage management platform - "TENER Smart Storage,"

...

## CATL Tianheng Energy Storage System , EB BLOG

CATL introduces Tianheng, the world's first "zero degradation over five years" energy storage system, setting a new standard in durability and safety for sustainable energy solutions.

## CATL reveals more about new Tener BESS at ...

CATL announced the new grid-scale BESS product in April this year, with two significant claims about its performance. The first was an industry-leading energy density of 6.25MWh of energy storage capacity ...

## Battery Energy Storage Systems Report

This information was prepared as an account of work sponsored by an agency of the U.S. Government. Neither the U.S. Government nor any agency thereof, nor any of their employees, ...

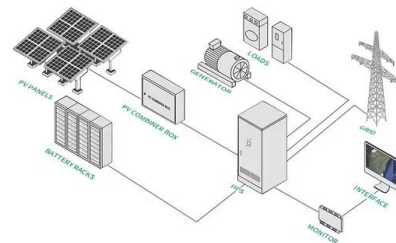

## CATL launches next-gen battery cell for energy ...

The 587 Ah high-capacity cell achieves an energy density of 434 Wh/L, a 10 percent improvement over the previous generation. CATL has deployed over 256 GWh of energy storage system capacity globally, ...

## CATL Sodium-Ion Batteries Cuts Costs By 90% : \$10/kWh

...

CATL's sodium-ion batteries promise \$10/kWh storage and 90% lower costs. See how they could transform EVs and grid energy worldwide fast.

## CATL Sodium-Ion Batteries Cuts Costs By 90% : \$10/kWh Energy ...

CATL's sodium-ion batteries promise \$10/kWh storage and 90% lower costs. See how they could transform EVs and grid energy worldwide fast.

## CATL reveals more about new Tener BESS at Intersolar Europe

CATL announced the new grid-scale BESS product in April this year, with two significant claims about its performance. The first was an industry-leading energy density of ...

## CATL unveils 6.25-MWh energy storage system ...

CATL has unveiled TENER, a 6.25-MWh energy storage system that is showing zero degradation in the first five years of use. While preventing the degradation of capacity over the first five years of use is a ...

## 3GWh! CATL Secures Another Major Overseas Energy Storage ...

1 ??· CATL has partnered with renewable energy developer ACnergy to supply 3GWh of energy storage battery systems (BESS) in Australia. The Chinese manufacturer announced the ...

## CATL unveils Tesla Megapack competitor, claims zero

CATL has unveiled Tener, a new large scale energy storage system to compete with Tesla Megapack. The system has almost twice the energy capacity of the Megapack, and ...

## Cat® Battery Energy Storage Systems , Cat , Caterpillar

Expand your energy capacity and power resiliency with the Cat® Battery Energy Storage System (BESS). A new suite of commercially available battery technologies boosts power reliability, ...

## World's first 9 MWh energy storage system by ...

CATL's new Tener Stack energy storage system breakthrough can supply electricity from renewables to the average home for up to six years, in the first five of which it will undergo zero

## CATL at Smarter E: We are entering the era of 9 ...

The world's biggest battery maker unveiled its latest utility-scale battery energy storage product- the Tener Stack - at the Smarter E show. The 9 MWh system supports both centralized and string power ...

## Why Tesla, BYD & CATL are Making Batteries for Solar Power

Tesla, BYD & CATL are some of the businesses capitalising on the intermittent nature of solar power with storage systems set to grow to support renewables Solar PV and ...

## World's first 9 MWh energy storage system by ...

CATL's new Tener Stack energy storage system breakthrough can supply electricity from renewables to the average home for up to six years, in the first five of which it will undergo zero capacity

## CATL launches 9MWh 'two in one' stacked BESS product

CATL's Hank Zhou, CTO ESS Europe, unveiling the new product. Image: CATL. CATL has launched a 9MWh grid-scale BESS product which comprises two smaller units ...

## Energy-Storage.News

Global energy storage technology and energy software services provider Fluence and ACE Engineering have opened a new automated battery storage manufacturing facility in Vietnam's Bac Giang Province.

## CATL unveils 'zero degradation' battery storage

...

The company's latest containerised BESS product, Tener. Image: CATL. Lithium-ion battery manufacturer CATL has launched its latest grid-scale BESS product, with 6.25MWh per 20-foot container and zero ...

## New sodium-ion developments from CATL, BYD, ...

On November 18, CATL announced its second-generation sodium battery. Addressing the World Young Scientists Summit, chief scientist Wu Kai said the new battery will be launched next year - four ...

## Contemporary Amperex Technology Co. Limited (CATL)

Contemporary Amperex Technology Co., Limited (CATL) is a global leader in the development and production of advanced lithium-ion batteries and energy storage solutions. Founded in ...

## Review of CATL's "Zero Degradation" BESS

Review of CATL's "Zero Degradation" Battery Energy Storage System (BESS) Contemporary Amperex Technology Co., Limited (CATL), a leading battery and cell manufacturer based in China, has ...

## CATL unveils Tesla Megapack competitor, claims ...

CATL has unveiled Tener, a new large scale energy storage system to compete with Tesla Megapack. The system has almost twice the energy capacity of the Megapack, and CATL claims zero ...

## Naxtra Battery Breakthrough & Dual-Power ...

These revolutionary innovations break through technological boundaries, and officially lead the industry Contemporary Amperex Technology Co., Limited (CATL) is a global leader in new energy

...

## World first energy storage unit demonstrates zero ...

China's CATL - the world's largest EV battery producer - has launched TENER, which is described as the "world's first mass-producible energy storage system with zero degradation in the first

## CATL unveils 587 Ah battery energy storage cell

China's CATL, the world's leading battery maker, has officially showcased its new 587 Ah high-capacity battery cell, which will be integrated into its next-generation TENER ...

## CATL Unveils TENER, the World's First Five-Year ...

On April 9, CATL unveiled TENER, the world's first mass-producible energy storage system with zero degradation in the first five years of use in Beijing, China.

## IRENA Released World's First Report on Energy ...

On November 7, the International Renewable Energy Agency (IRENA), a lead global intergovernmental agency for energy transformation, released the energy storage report entitled Key Enablers ...
