# **Cccc energy storage project**

## Overview

---

What does CCCC do?

CCCC itself is a company that has been involved in many major projects in China and abroad. Some of its biggest projects including the construction of the Hangzhou Bay bridge, the world's largest port located in Shanghai, as well as the construction of the Three Gorges Dam in China.

How many units are there in the community energy storage project?

Existing Community Energy Storage Projects 12 units (260 kW / 391 kWh) installed with 7 in production 3 Location Qty Size (kW/kWh) Mfg/Integrator Status Purpose  
STC, Clairemont, Poway 3 25/72 Saft/ Powerhub Installed, technical evaluation  
PV Smoothing, Peak Shaving, VAr Dispatch  
Borrego Springs 3 25/50 Greensmith Production .

Will PLN and CCCC accelerate energy transition process?

"The cooperation that has been built between PLN and CCCC is expected to accelerate the construction of renewable energy power plants. Thus, Indonesia will further accelerate energy transition process," Prasodjo said.

Can CCCC accelerate energy transition from fossil energy to EBT?

By cooperating with CCCC, which is the largest construction company in China, it is hoped that it can accelerate the energy transition process from fossil energy to EBT in order to achieve the target of net zero emission (NZE) in 2060.

Why should PLN collaborate with CCCC?

PLN expects the collaboration with CCCC to provide valuable access to cutting-edge technologies and expertise in the renewable energy sector.

Can CCCC accelerate Indonesia's energy transition?

As one of the largest construction companies in China, CCCC holds the potential to accelerate Indonesia's energy transition process from fossil fuels to renewable energy, in line with the country's net-zero emission (NZE) target set for 2060.

## Cccc energy storage project
