# Chile installs energy storage

## Overview

---

How many energy storage projects are in Chile?

Currently, 36 of the 129 large-scale projects Latin America projects with an energy storage component under development are in Chile, including 32 out of 71 of the region's early works projects. The storage technologies either in use or being considered include:

Where are Chile's battery energy storage facilities located?

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage. The greatest installed capacity is found in the northern regions of Antofagasta and Tarapacá, the country's solar powerhouses.

Is lithium ion battery storage available in Chile?

While many projects are under development, lithium - ion battery storage is still limited. According to data from Acera, the Chilean Renewable Energy Association, there are only 64MW of battery storage capacity currently active, representing 0.2% of national capacity.

How much battery storage capacity does Chile have?

According to data from Acera, the Chilean Renewable Energy Association, there are only 64MW of battery storage capacity currently active, representing 0.2% of national capacity. AES Andes, a subsidiary of U.S. company AES Corp. operates all 64MW at their Angamos and Los Andes substations.

Why is Chile pursuing energy storage in Antofagasta?

Chilean president Gabriel Boric (centre) at the inauguration of an energy storage plant in the northern region of Antofagasta in April 2024. Chile has strong conditions for wind and solar energy, and is pursuing storage to help overcome intermittent supply (Image: Ximena Navarro / Dirección de Prensa,

Presidencia de la República de Chile).

Are battery energy storage systems a viable alternative for Chilean power producers?

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean power producers.

## Chile installs energy storage

---

### Chile inaugurates its largest standalone battery ...

Chile Energy Minister Diego Pardow was present at the inauguration of the 200 MW/800 MWh BESS del Desierto, a project its developers describe as the first large-scale standalone energy storage ...

### Chile seeks multi-gigawatts of large-scale storage ...

Gabriel Boric (front row centre), president of Chile since 2022. Image: Biblioteca del Congreso Nacional de Chile. The government of Chile will launch a bill this year to procure large-scale energy storage ...

12.8V 200Ah

### Battery Energy Storage Systems (BESS) in Chile

All Chilean energy storage players, ranging from IPPs to PCS providers, are now closely awaiting the publication of the capacity market decree (DS N 62) expected in Q2 of 2024.

### METLEN and Glenfarne seal landmark deal for ...

As BESS become an integral part of energy markets, METLEN has been in the forefront of implementing energy storage projects - standalone and on a hybrid basis.

## Chile makes progress on energy storage with 20

With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and efficiency in Latin America.

## Chile: Engie energises 418MWh BESS, Canadian

Engie has energised the 68MW/418MWh BESS Tamaya project in Chile, while e-STORAGE secured a turnkey EPC contract to supply a 98MW/312MWh BESS.

## In Chile, ENGIE starts commercial operation of the ...

This system has a storage capacity of 638 MWh, with 139 MW of installed capacity. This co-located Battery Energy Storage System (BESS) technology uses lithium batteries to store the renewable energy generated by the ...

## AES Installs First Energy Storage System in Chile

AES Energy Storage and A123 Systems announced the commercial operation of a 12 MW frequency regulation and spinning reserve project at AES Gener's Los Andes ...

## Which are the top 20 countries for battery energy ...

The next three market leaders in growth are Australia, Chile and Uzbekistan. This capacity development is largely driven by renewables buildout, the need for grid flexibility and strong revenue potential for asset ...

## Metlen and Glenfarne Agree on Landmark 588 MW Solar and ...

Metlen and Glenfarne have agreed on a landmark 588 MW solar and 1610 MWh battery energy storage system (BESS) projects portfolio acquisition in Chile. Metlen's 588 MW ...

## Large scale battery storage on the rise in Chile

Three utility scale battery energy storage projects co-located with solar plants were announced last week in Chile. Enel is building a 67 MW/134 MWh battery, while CJR Renewable and Uriel

## Chile: A 'showcase' for storage and the energy ...

Chile's highly ambitious energy storage strategy, coupled with its significant supplies of lithium - an important component of batteries used in energy storage systems - means that the amount of energy ...

## Chile Already Halfway to 2 GW Energy Storage Target

By the end of March 2025, the country had 954 MW of operational energy storage capacity, representing 48% of its national target of 2 GW by 2030. This progress ...

## South America: One of energy storage's final frontiers

South America is the continent most dependent on renewable energy. But market has been difficult for the energy storage industry to penetrate. Most South American countries ...

## How Energy Storage is Powering Chile's Sustainable Future

This world-first installation played a vital role in stabilizing the grid in Northern Chile and demonstrated the potential of battery storage to enhance grid reliability and free up generation ...

## Chile deploys 2.14 GW of solar in 2024

Chile installed 2.14 GW of new solar in 2024, bringing its total installed PV capacity to 10.5 GW by year-end, according to the National Energy Commission (CNE).

## Chile to become second-largest battery market in ...

Chile is now on track to become the second-largest battery market in the Americas, following the United States. As of this year, the Latin American nation has switched on 12 storage projects, with

## Engie breaks ground on 995 MWh solar-plus ...

The site, the first solar-plus-storage project built from scratch by Engie Chile, will feature 208 lithium-ion battery containers. Engie Chile wants 3.5 GW of installed energy capacity by 2027, with more than ...

**Outdoor Cabinet BESS**  
 50 kWh/500 kWh Battery Storage System  
 Industrial and Commercial Energy Storage

- **All in One**  
Integrating battery packs
- **Intelligent Integration**  
Integrated photovoltaic storage cabinet
- **High-capacity**  
50-500kWh
- **Rated AC Power**  
50-100kW
- **Degree of Protection**  
IP54
- **Altitude**  
3000m(>3000m derating)
- **Operating Temperature Range**  
-20~60°C(Derating above 50 °C)

## Chile Power System Outlook

Foreword Chile has been a leader in raising awareness on the effects of climate change and the need for ambitious targets and urgent action. It was one of the first countries in the world to ...

## Chile Energy Storage Industry Holds Promise , EMIS

The project is Atlas Renewable Energy's first foray into battery storage technology, which the company sees as essential for increasing the share of renewable energy ...

## Banking on batteries in Chile - pv magazine International

The net installed storage capacity in operation in Chile reached 404 MW/1,602 MWh in June 2024, according to the latest figures released by the country's Ministry of Energy.

## Chile: CJR, Sungrow project, capacity market for ...

The 244MWp Sol del Desierto PV project in Antofagasta, Chile. Image: Atlas Renewables / PR Newswire. Chile has passed new regulations around capacity market payments to energy storage, ...

## Chile: 2GWh+ of energy storage projects proposed ...

The Atacama desert region in Chile is a hotbed of solar and storage activity. Image: Elias Roviello. Nine projects pairing solar or wind with energy storage submitted environmental impact assessments (EIAs) in ...

## Chile: 2GWh+ of energy storage projects proposed in September

The Atacama desert region in Chile is a hotbed of solar and storage activity. Image: Elias Rovielo. Nine projects pairing solar or wind with energy storage submitted ...

## BYD signs new deal to supply energy storage ...

BYD Energy Storage recently signed an order agreement with Spanish renewable energy company Grenergy to supply 3.5 GWh of energy storage systems for phase 6 of the latter's Oasis Atacama project ...

## Energy storage is a challenge and an opportunity ...

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage.

 **LFP 12V 200Ah**

## Chile Energy Storage: Powering the Future with Innovation

Why Chile's Energy Storage Scene is Turning Heads a country so rich in sunlight that solar panels practically beg to be installed, yet so mountainous that storing that energy ...

## Chile solar energy market 2025 -Opportunities, Policy, Trends

...

Chile's booming solar energy market in 2025, with policy support, industrial trends, and MOTOMA's turnkey solar + storage solution for mining, agriculture, and residential ...

## Chile: BESS as an answer to solar curtailment, grid ...

Energy storage can mitigate constraints that have prevented Chile from maximising the potential of its world-class solar resources.

## Renewable Energy 2024

The government has defined as a central priority the installation of a minimum energy storage capacity in the electricity system, which has been defined by the National Electrical Coordinator after an ...

## Chile's Action Plan for Power Sector Decarbonization

BACKGROUND A collaborative report from the Clean Energy Ministerial (CEM) on Lessons Learned for Rapid Decarbonization of Power Sectors was delivered to energy ministers and ...
