Energy storage cabinet lighting

Overview

Does energetic lighting have a battery backup option?

Energetic Lighting offers motion sensor options with emergency battery backup. The latest performance LEDs with drivers rated 50,000 hours of use are utilized, while the products are backed by a 10-year warranty, ensuring many years of dependable, maintenance-free elegant lighting.

What is Energetic Lighting E6SLB?

Energetic Lighting's E6SLB strip fixtures are light duty, dimmable, and DLC Listed. They come with a 5-year warranty and have ETL certifications to ensure top quality products and safety. Suitable for use in a broad range of commercial and industrial applications.

Why choose Energetic Lighting HBCN?

Energetic Lighting engineered the HBCN to have a lightweight profile to save on weight, packaging, and storage, reducing its carbon footprint while maintaining uncompromised quality and performance. The E4DLM series from Energetic Lighting is suitable for use in a broad range of commercial applications.

How does Energetic Lighting's LED Bed Light work?

Energetic Lighting's LED Bed Light works by directing light down, up, or in both directions. It offers a 40W downlight, 18W uplight, or a combined 58W. Energetic Lighting's LED Bed Light emulates the traditional bi-directional fluorescent fixtures used throughout hospitals and the general medical/nursing industry.

Can E4SB be used for up-lighting?

The E4SB series light from Energetic can be used for up-lighting as well as wall washing. E4SB is engineered to respect the classic look of a shoebox area light, while its slim tapered, self-cleaning profile suggests exceptional

performance.

Does energetic lighting have a ceiling fan?

Energetic Lighting's ceiling fan comes with a built-in light. It can be easily controlled by remote control and has 6 wind speed options to meet your different needs. The ceiling fan with light saves worry and energy with timing function (1/2/4 hours).
