Energy storage of cecep

Overview

What does Cecep do?

In accordance with the requirements of high-quality development, CECEP will accelerate the construction of a world-class conglomerate specializing in energy conservation, environmental protection and health industry while striving to make greater contributions to building a beautiful China and a clean, beautiful world.

Who is Cecep solar energy?

China-based PV module manufacturer and PV project developer and operator, CECEP Solar Energy Co has started an initial phase of construction of an advanced solar cell facility as part of a new strategy to enter and become a major merchant cell producer with a total capacity of 50GW.

Where will Cecep solar plant be located?

The plant will be located in the Jiangsu Zhenjiang New District New Energy Industrial Park, which already houses around 1GW of module assembly capacity, according to PV Tech's analysis. CECEP Solar had revenue of approximately US\$747 million in 2019 and module production output of 809MW.

Who is China Energy Conservation & Environmental Protection Group (Cecep)?

China Energy Conservation and Environmental Protection Group (CECEP) is a central enterprise founded in 2010 after the merger between China Energy Conservation Investment Corporation and China New Era Group Corporation with the approval of China's State Council.

Why should you choose Cecep?

In recent years, CECEP has developed advantages across the whole industry chain of energy conservation and environmental protection from planning and consulting to R&D and design, investment and development, equipment

manufacturing, engineering construction, operation and management, and investment and financing services.

How much money did Cecep solar make in 2019?

CECEP Solar had revenue of approximately US\$747 million in 2019 and module production output of 809MW. Revenue reported for the first nine months of 2020 was approximately US\$576.5 million. The company had approximately 4.97GW of PV power plants under management in 2019 and a 12GW pipeline.
