Energy storage pcs product manual

Overview

What is a PCS power conversion system?

PCS is a high power density power conversion system for utility-scale battery energy storage systems (up to 1500 VDC). It is optimized for BESS integration into complex electrical grids and is based on our best-in-class liquid cooled power conversion platform, enabling greater scalability and efficiency. Key highlights.

What are the safety rules of energy storage converter?

ing way6.3 Electrical connection6.3.1 General safety rulesDanger of electric shock!Please make sure that the installation cables and equipment are not charged before installation.The capacitor inside the energy storage converter is a hazardous energy storage device, do not place flammable.

What are the requirements of energy storage cabinet?

egrated energy storage cabinet, its installation environment needs to meet the following requirements.The energy storage cabinet should be avoided to be installed in poor ventilation conditions and low airflow.The air inlet should have sufficient fresh air supply.Air quality must be ensured. If the air contains dust.

What is a PCS100 ESS load limit?

Ensure that the load is suitable for the PCS100 ESS. System Overload (SW). The load current is near the limit. The limit is 160% of the PCS100 ESS rating. Note: This limit is set by the software.

Why is PCS100 ESS not working?

Not common for PCS100 ESS converters as the inverter connection is 3 wires floating. The maximum battery voltage as defined by parameter 61 Over voltage level has been reached. The PCS100 ESS is now limiting the incoming power to avoid over-charging the battery. Stop charging the battery.

Do energy storage converters need to be charged before installation?

on cables and equipment are not charged before installation. The capacitor inside the energy storage converter is a hazardous energy storage device, do not place flammable and explosive substances near the energy storage converter. All electrical connections must comply with the electrical conn
