Energy storage power supply recall announcement query

Overview

What is a recalled LG Energy Solution model Resu 10h battery?

This recall involves LG Energy Solution Model RESU 10H lithium-ion storage batteries that were installed as part of a residential energy solar panel system. The recalled batteries allow owners to capture and store energy from the solar panels. The batteries are wall mounted and measure about 29 by 36 by 8 inches. They weigh roughly 220 pounds.

How do I contact CPSC about a recalled battery?

Call CPSC's Hotline at 800-638-2772 (TTY 800-638-8270). Contact a media specialist. LG Energy Solution Michigan will arrange for remote software updates to recalled batteries that are connected online. The diagnostic software updates are designed to monitor the recalled battery cells and shut down the battery if a fire risk is detected.

When will batteries be recalled?

- 14 September 2018 to 30 June 2019. Batteries with cells manufactured between 29 March 2017 and 13 September 2018 are also subject to existing product safety recalls PRA 2020/18529 and PRA 2022/19420 because of the fire hazards they pose.

Are recalled LG batteries enforceable?

Additional advice from the ACCC dated 27 May 2024: On 17 May 2024, the ACCC accepted an enforceable undertaking from LG Energy Solution to take actions to protect consumers from risks posed by these recalled LG batteries.

How much does a recalled LG battery weigh?

They weigh roughly 220 pounds. The LG logo is located on the top left side of the front panel. The serial number of the recalled product begins with R15563P3S and is located behind the access door of the RESU home battery. LG Energy Solution Michigan will arrange for remote software updates to

recalled batteries that are connected online.

What models are affected by Resu batteries?

Models with affected batteries include: Affected RESU batteries are LG branded systems. What should I do?

12.8V6Ah

Nominal voltage (V):12.8
 Nominal capacity (ah):6
 Rated energy (WH):76.8
 Maximum charging voltage (V):14.6
 Maximum charging current (a):6
 Floating charge voltage (V):13.5-13.8
 Maximum continuous discharge current (a):10
 Maximum peak discharge current @ 10 seconds (a):20
 Maximum load power (W):100
 Discharge cut-off voltage (V):10.8
 Charging temperature (°C):0-+50
 Discharge temperature (°C):-20-+50
 Working humidity: <95% R.H (non condensing)
 Number of cycles (25 °C, 0.5c, 100%doD): >2000
 Cell combination mode: 32700-4s1p
 Terminal specification: T2 (6.3mm)
 Protection grade: IP65
 Overall dimension (mm):50*70*107mm
 Reference weight (kg):0.7
 Certification: un38.3/msds
