Energy storage showroom

Overview

What is energy storage South?

Energy Storage South launches in the next hub of clean energy, battery and EV growth—the U.S. Southeast. Co-located with The Battery Show and Electric & Hybrid Vehicle Technology Expo South, Energy Storage South will feature an expanded focus on the energy storage systems pivotal for H/EV, renewables, commercial buildings, and critical facilities.

Why should you attend energy storage Expo?

From connecting with 150,000+ of your peers to doing business with 600+ exhibitors, It's an exhibition that yields benefits throughout the entire year. Preview the latest energy storage products and solutions, tune in to the latest industry trends and expand global business networks.

Why should you choose tesvolt energy storage systems?

TESVOLT energy storage systems are the economical choice for the most demanding applications. Made in Germany, in Europe's first ever gigafactory for stationary battery storage systems, in Lutherstadt Wittenberg. Quality, performance, and optimum interplay between the individual components set our storage systems apart from the rest.

What is energy storage business matchmaking?

It is a premium global platform for energy storage business matchmaking, tailored specifically for system integrator, importer, distributor, manufacturer, installer, project developer&operator, OEM/ODM, investor, service provider, energy consultant and research institute worldwide.

Should large-scale energy storage systems be connected to the medium- and high-voltage grid?

Distribution grid operators are receiving a large number of requests to connect large-scale energy storage systems to the medium- and high-voltage

grid. This has been published by Bayernwerk Netz, Bavaria's largest distribution system operator, and Mitnetz Strom.

What is tesvolt energy storage system?

State-of-the-art prismatic lithium battery cells from Samsung SDI combined with our patented and TÜV-certified Active Battery Optimizer smart cell control system form the core of our storage systems. TESVOLT energy storage systems are the economical choice for the most demanding applications.
