## Overview

---

As the global demand for renewable energy surges, Energy Storage System (ESS) manufacturers play a pivotal role in ensuring grid stability, energy efficiency, and sustainable power solutions. In 2025, leading companies are innovating with cutting-edge battery technologies, smart energy management.

As the global demand for renewable energy surges, Energy Storage System (ESS) manufacturers play a pivotal role in ensuring grid stability, energy efficiency, and sustainable power solutions. In 2025, leading companies are innovating with cutting-edge battery technologies, smart energy management.

InfoLink Consulting has released its 2024 global energy storage system (ESS) shipment ranking, based on its Energy Storage Supply Chain Database. In 2024, global ESS shipments continued to grow, reaching 240 GWh, up over 60% YoY. AC side: Leading manufacturers between China and the U.S. maintain.

China's energy storage industry is set to experience significant growth through 2027, fueled by a combination of growing market demand and supportive government policies, according to industry experts and company executives. The country's new energy storage sector, which is currently in its early.

NREL research is investigating flexibility, recyclability, and manufacturing of materials and devices for energy storage, such as lithium-ion batteries as well as renewable energy alternatives. Research on energy storage manufacturing at NREL includes analysis of supply chain security. Photo by.

Accelerate innovation to manufacture novel energy storage technologies in support of economy-wide decarbonization. Who benefits from the manufacturing innovation?

We are building innovation ecosystem! Domestic suppliers – AMMTO strengthens domestic material supply chains and improves manufacturing.

Huaxia Energy Network & Huaxia Energy Storage (public number hxcn3060) learned that on February 21, InfoLinkConsulting released the 2024 global energy storage system shipment ranking and related data. According to the data, the global energy storage system shipments will reach 240GWh in 2024, a. Will China's energy storage manufacturing industry lead the world?

China's energy storage manufacturing industry is already at the forefront of global standards and will continue to lead the industry in advanced power trading and grid integration technologies in the future, said Tian Qingjun, senior vice-president of Envision Group.

Is Xuji electric storage a top energy storage supplier?

Through this merger, the company became one of the world's top energy storage suppliers. Among its subsidiaries, SCETL ranked 10th worldwide, Xuji Electric Storage ranked 12th, and their combined shipments rivaled leading global companies. In 2024, DC-side shipments showed a clear ranking.

How can energy storage technology improve China's Energy System?

"Key developments in energy storage technologies will play a pivotal role in integrating renewable energy sources and smart grids, thus enhancing the overall flexibility and efficiency of China's energy system," said Fei Zhi, vice-chairman of GCL Group.

Which battery energy storage system integrators are the best in 2024?

AC side: Leading manufacturers between China and the U.S. maintain strong positions amid competition. The top five global battery energy storage system (BESS) integrators in the AC side for 2024 were Tesla, Sungrow, CRRC Zhuzhou Institute, Fluence, and HyperStrong. Tesla and Sungrow secured the top two global positions.

Who are the top energy storage cell makers?

Notably, CATL, BYD, and the newcomer Hithium are top energy storage cell makers, increasingly expanding into system integration. Top cell makers, with their technology and supply chain advantages, are strengthening their competitiveness in the full industry chain through vertical integration.

Who makes the best energy storage cells in 2024?

In 2024, DC-side shipments showed a clear ranking. CATL and BYD remained

the top two with a strong lead, followed by PotisEdge, Hithium, and RelyEZ. Notably, CATL, BYD, and the newcomer Hithium are top energy storage cell makers, increasingly expanding into system integration.
