European energy storage association official website

Overview

What is the European Association for storage of Energy (EASE)?

The European Association for Storage of Energy (EASE) is a diverse community of members that unite their efforts to promote the entire energy storage value chain, which is a fundamental link to a decarbonised energy system.

What is the Energy Storage Association (ESA)?

The Energy Storage Association (UK) (ESA) is a dynamic new member-supported trade body. We represent the critical role of energy storage to support the cost-effective transition to a resilient and secure clean energy system. The ESA will represent the entire energy storage value chain.

How does ease support the deployment of energy storage?

EASE supports the deployment of energy storage to support the cost-effective transition to a resilient, climate-neutral, and secure energy system. EASE, located in Brussels, is the leading member-supported association representing organisations active across the entire energy storage value chain.

What is the Energy Storage Coordination Group?

The Energy Storage Coordination Group provides an informal framework to exchange intelligence and, where appropriate, coordinate on advocacy initiatives to accelerate the deployment of energy storage solutions towards a cost-efficient, resilient and climate neutral European energy system.

How big is Europe's energy storage capacity in 2024?

This report highlights Europe's rapid expansion in energy storage capacity, which reached 89 gigawatts (GW) by the end of 2024. In 2024, EASE has been instrumental in shaping policies for the evolving energy storage sector.

How has ease impacted the energy storage industry in 2024?

In 2024, EASE has been instrumental in shaping policies for the evolving energy storage sector. From fostering the battery industry and ensuring effective EU legislation to developing safety guidelines and promoting sustainable raw materials, its work has driven meaningful progress.

European energy storage association official website

Energy Storage Association Homepage , ESA

The US Energy Storage Association is the leading national voice that advocates and advances the energy storage industry to realize the goal of a better world.

EASE: How energy storage redefines Europe's power ecosystem

Jacopo Tosoni, Head of Policy at the European Association for Storage of Energy (EASE), discusses how energy storage is rapidly reshaping Europe's energy system, ...

European Energy Storage Inventory , JRC SES

Disclaimer: The European Energy Inventory Storage dataset is mainly based on public data and data from Wood Mackenzie. Wood Mackenzie Limited, subject to any additional data ...

The European Association for Storage of Energy

This edition of the Energy Storage Global Conference provided valuable insights on energy storage and showcased itself as a leading event

for the industry giving access to current knowledge and important contacts in the ...

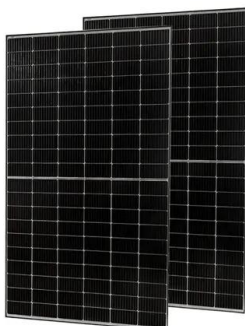

Energy Storage Global Conference

The Energy Storage Global Conference (ESGC) is back! The conference's fifth edition will be held on 11 - 13 October 2022 and is organised by EASE - The European Association for Storage of ...

Energy Storage Global Conference

The Energy Storage Global Conference (ESGC) is back! The conference's fifth edition will be held on 11 - 13 October 2022 and is organised by EASE - The European Association for Storage of Energy, with the support of the ...

About us

This ranges from market introduction strategies to proposals for further research and development policy, from tax policy subsidies to arms conversion with solar energy, from the contribution of solar energy for the ...

About , IESA Irish Energy Storage Association

CEO of South East Energy Agency and current President of Irish BioEnergy Association, Executive Committee of the Irish Wind Farmers Association, Member of the Chambers of Ireland Low Carbon Taskforce, Advisory ...

[Energy-Storage.News](#)

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel ...

[Associate Members](#)

The European Association for Storage of Energy (EASE) is a diverse community of members that unite their efforts to promote the entire energy storage value chain, which is a fundamental link to a decarbonised energy ...

Europe installed 12GW of energy storage in 2024

A total of 11.9GW of energy storage across all scales and technologies was installed in Europe in 2024, bringing cumulative installations to 89GW. According to the ninth ...

Swedish Energy Agency

Swedish Energy Agency is responsible for energy statistics Swedish Energy Agency has been tasked by the Government to be responsible for the official statistics within following areas, supply and use ...

Application scenarios of energy storage battery products

Energy Storage Summit

2026 is set to be a year of growth for the European energy storage sector, and a pivotal year for the wider energy transition. Our Summit aims to highlight the fundamental role that energy storage will play in this journey, ...

Who we are , EASE: Why Energy Storage? , EASE

The European Association for Storage of Energy (EASE) located in Brussels, Belgium, is the leading member-supported association representing organisations active across the entire energy storage value chain.
