# **Haiti mobile energy storage project**

## Overview

---

The objective of this Project is to maximize the use of the energy produced by Solar Power Plants (SPP) to further reduce the use of thermal power, by implementing a Battery Energy Storage System (BESS) at the Caracol Industrial Park of Haiti. This will be the first-of-a-kind investment in storage technology in Haiti at this size, and will signal to investors and government decision-makers the benefits of installing BESS to maximize the energy produced by SPP and further reduce the use of thermal power.
