### INTERVIEW , Why InterContinental Energy is ...

Back in 2020, InterContinental Energy was arguably the most high-profile green hydrogen developer in the world, with ambitious plans to build three of the planet's six largest renewable H<sub>2</sub> projects, all ...

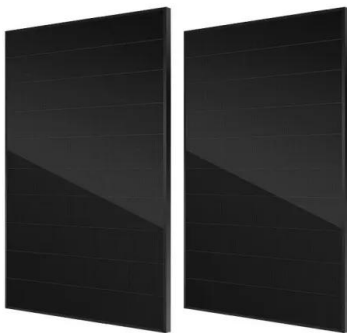

### PRESS RELEASE

About InterContinental Energy Using upstream wind and solar, InterContinental Energy delivers green hydrogen at scale to accelerate the energy transition. InterContinental Energy has been ...

### Novel Australian tech to fuel 70 GW green ...

Australia's InterContinental Energy says its cost-cutting hydrogen production system underpins the proposed 70 GW Western Green Energy Hub and enables giga-scale scalability.

## About Us

During the mid-2000s, Alex Tancock started looking at satellite-derived global wind and solar maps, and an idea began to germinate. He thought about the immense windy and sunny deserts as untapped natural resources that ...

## Optimization of green ammonia distribution systems for ...

Green ammonia is a promising hydrogen derivative which enables intercontinental transport of dispatchable renewable energy. This research describes the ...

## SYSTEM AIMS TO CUT HYDROGEN FUEL PRODUCTION

...

Australia-based company InterContinental Energy, specialising in large-scale green hydrogen development, has announced its patented P2 (H<sub>2</sub>)Node system for hydrogen ...

## Intercontinental Energy's Modular 'Node' Architecture Promises ...

With Australia hosting two of the world's largest green hydrogen developments--together exceeding 96 GW of planned wind and solar ...

## InterContinental Hotels , Stem Case Study

Learn how Stem's clean energy solutions helped Intercontinental Hotel reduce energy costs and increase efficiency through advanced energy storage technology.

## Jupiter Power BESS project now online in Houston

Jupiter Power said its Callisto I battery energy storage facility in Houston, Texas is now serving the ERCOT grid. Callisto I is a 200 MW/400 MWh battery energy storage ...

## CTCI wins EPC bid for LNG storage tanks at ...

CTCI Group has played active role in the global energy transition by undertaking LNG terminal, gas-fired power plant, solar power, offshore wind projects, and continues to explore new realms of energy ...

## InterContinental Energy's P2 (H2)Node cuts green ...

InterContinental Energy announced its patented P2 (H2)Node system. Designed in Australia after 4 yr of intense innovation and engineering, this solution cuts costs, boosts efficiency, and allows for the ...

## Energy Storage Summit , InterContinental London

The 2025 Energy Storage Summit is the leading European event spotlighting the critical role of energy storage in the global journey to net zero. Join industry leaders for three dynamic days ...

## IPC Awarded the EPC Contract for LNG Storage Tanks at ...

Introduc the IHI Group's News Articles, 2025FY,IPC Awarded the EPC Contract for LNG Storage Tanks at Kaohsiung Intercontinental Terminal

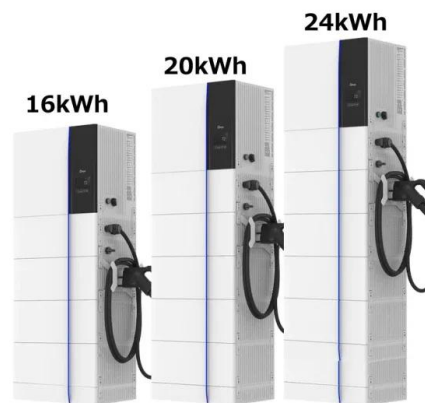

## INTERVIEW , Why InterContinental Energy is happy to have ...

Back in 2020, InterContinental Energy was arguably the most high-profile green hydrogen developer in the world, with ambitious plans to build three of the planet's six largest ...

## InterContinental Energy

About InterContinental Energy InterContinental Energy focuses on the development of large-scale renewable energy projects for the production of green hydrogen within the energy sector. The ...

## **InterContinental Energy's Game-Changing ...**

Conventional centralised models require expensive electricity transmission, leading to energy losses and inefficiencies. The patented P2 (H<sub>2</sub>)Node system flips this model by collocating giga-scale hydrogen production with ...

## CTCI Group ????

CTCI Group has played active role in the global energy transition by undertaking LNG terminal, gas-fired power plant, solar power, offshore wind projects, and continues to explore new ...

## **CTCI to build LNG storage tanks at Kaohsiung intercontinental ...**

CTCI Group has played active role in the global energy transition by undertaking LNG terminal, gas-fired power plant, solar power, offshore wind projects, and continues to ...

## InterContinental Energy

As we celebrate our 10th year anniversary this year, we would like to take this opportunity to thank all our strategic investors, host governments, project partners, and Traditional Land Owners, ...

## **the 6th Vietnam Onshore Offshore Wind and ...**

the 6th Vietnam Onshore Offshore Wind and Energy Storage Summit (VOOWESS)  
23-24, February, 2023, InterContinental Hanoi Landmark 72 Hotel, Vietnam REGISTER NOW!

## InterContinental Energy

As we celebrate our 10th year anniversary this year, we would like to take this opportunity to thank all our strategic investors, host governments, project partners, and Traditional Land Owners, for their support in our long-term ...

## Alicia Eastman

Before co-founding ICE in 2014, a dedicated green fuels developer/owner focused on 25GW+ world-class integrated green hydrogen projects located in coastal deserts with the most efficient diurnal wind/sun ...

## InterContinental Energy's P2 (H2)Node cuts green H2 costs

InterContinental Energy announced its patented P2 (H2)Node system. Designed in Australia after 4 yr of intense innovation and engineering, this solution cuts costs, boosts ...

### Innovation

The modular engineering design of the patent-approved P2 (H2)Node(TM) centres the electrolysis systems within the wind and solar fields, minimising electrical losses while transmitting the vast ...

## InterContinental Energy Releases Green Hydrogen Production ...

Designed to produce and export green hydrogen and ammonia, WGEH boasts a planned 70GW renewable energy capacity - positioning it as the world's largest and most cost ...

## InterContinental Energy Releases Green Hydrogen Production ...

InterContinental Energy, a global leader in giga-scale green hydrogen development, announces its patented P2(H2)Node system. Designed in Australia after four ...

## C& I ESS in Intercontinental Hotel Shanghai, China

Excited to announce the successful operation of CNTE latest C& I ESS project--a 1MW/2MWh energy storage system installed at the InterContinental Hotels in Shanghai!

## Developers seek approval for 70 GW green energy ...

A consortium has submitted a 70 GW solar and wind project proposed for Western Australia's Goldfields-Esperance region to the state government for environmental approval.

## Novel Australian technology to fuel 70 GW green ...

Western Australia's green fuels developer InterContinental Energy has announced its revolutionary cost cutting nodel hydrogen production system, which allows for the scaling of giga-scale production ...

## 2025 Webinar

Wärtsilä Energy Storage and Zenobe recently hosted an in-depth exploration of the Blackhillock battery energy storage system in Scotland. At 200 MW / 400 MWh (with plans to expand to ...
