Islamabad power storage project

Overview

How long does it take to build a substation in Islamabad?

The project aims to be completed by August 31, 2026, within a 32-month timeframe. The project's objective is to install a 765/500/220/132 kV Substation at Islamabad West, along with associated transmission lines, to meet the increasing power demands of areas under the jurisdiction of the Islamabad Electric Supply Company (IESCO).

What is Islamabad West Substation project?

The proposed project Islamabad West Substation will enhance the capacity of transmission system and ensure uninterrupted power to its consumers.

Will Islamabad West substation be operational by 2026?

ISLAMABAD - The capital city of Islamabad is expected to have the Islamabad West Substation operational by 2026, enhancing the transmission system's capacity and ensuring uninterrupted power supply to consumers.
