Jianghai energy storage

Overview

What products does Jianghai offer?

Jianghai's wide product range comprises of Aluminium Electrolytic Capacitors for demanding applications in Screw Terminal, Snap-in, Radial and Polymer (Leaded and SMD). In 2012, the product portfolio was complemented by a range of Power DC Film Capacitors & EDLC Super Capacitors.

Are Jianghai capacitors a good choice?

The capacitors described here are already being mass produced by Jianghai and have proven their superior performance under real operating conditions in the field. China is on its way to becoming a world-leading industrial nation. Innovation, quality and efficiency are becoming increasingly important.

Why is Jianghai a vertical integration company?

With its vertical integration strategy, Jianghai has its own facilities for etching and forming the anode material and can therefore optimize the properties of the films. Improvements to the etching process result in more uniform pores (b), making better use of the available volume.

CHINA'S ACCELERATING GROWTH IN NEW TYPE ...

In terms of storage types, the dominant advantage of lithium-ion batteries continues to expand, accounting for 97.4% of the new type storage installation. Other types, such as air ...

Top 10 supercapacitor companies in China - ...

A supercapacitor is an electrochemical element developed in the 1970s and 1980s that uses polarized electrolytes to store energy. This article sorts out top 10 supercapacitor companies in China, which helps to ...

China new energy storage capacity tops 100 GW, surpasses hydro

22 ????· China's installed energy storage capacity reached 164 GW by June 2025, according to the China Energy Storage Alliance (CNESA). More than 100 GW came from new energy ...

Innovation Strategies for Capacitors from the Made in China 2025

Jianghai Capacitor Co. has grown since its creation in 1958 to become the largest Chinese manufacturer of Aluminium Electrolytic, Film & Energy storage capacitors today.

Profile

..is currently opening up completely fields of application for energy storage and recovery with the technologies of Energy-C products? is the technology leader in polymer capacitors up to 100V? This helps our ...

Innovation Strategies for Capacitors from the Made in China 2025

A technology called energy capacitors provides the energy storage in capacitors with new boost. Energy-C is based on a double-layer technology and its further development to ...

Energy-C-Katalog_Innenteile_N EU_ohneM-COIN dd

The Energy-C concept represents a new technology for existing and future applications of energy storage. The capacitors described here are already being mass produced by Jianghai and ...

Jauch Quartz GmbH

Jianghai Capacitor Co. has grown since its creation in 1958 to become the largest Chinese manufacturer of Aluminium Electrolytic, Film & Energy storage capacitors today. While ...

Nantong Jianghai Energy Storage Technology Co., Ltd.

Discovery Company profile page for Nantong Jianghai Energy Storage Technology Co., Ltd. including technical research, competitor monitor, market trends, company profile & stock symbol

Jianghai Super Capacitor

Jianghai Super Capacitor From the Capacitor Supplier and Energy Storage Solution Provider
 What are Energy Capacitors? In times of e-mobility and generally when storing energy, often ...

Profile

..is currently opening up completely fields of application for energy storage and recovery with the technologies of Energy-C products? is the technology leader in polymer capacitors up to ...

How is the treatment of Nantong Jianghai Energy Storage?

The role of energy storage in the current global context is pivotal. As nations worldwide commit to reducing greenhouse gas emissions and pushing for energy ...

How is Jianghai Energy Storage Workshop? , NenPower

Jianghai Energy Storage Workshop has emerged as a beacon of technological advancement within the energy sector. Located strategically to optimize logistics and ...

CAPACITOR COMPETENCE since 1958

Introduction Due to their high energy density and low self-discharge, batteries are widely considered as possible energy storage devices of the future. However, batteries also have ...

Jianghai Components

Jianghai offers a broad range of electronic components, with a focus on aluminum electrolytic capacitors, tantalum capacitors, and other advanced solutions designed to enhance ...
