## Overview

---

Shenzhen Liande Automation Equipment Co., Ltd. (Short as “Liane”, Stock Code: SZSE 300545), founded in 1998, is a leading Chinese provider of professional solutions for LCD/OLED full line modules, flexible manufacturing, and customized automation equipment. The company passionately delivers.

Shenzhen Liande Automation Equipment Co., Ltd. (Short as “Liane”, Stock Code: SZSE 300545), founded in 1998, is a leading Chinese provider of professional solutions for LCD/OLED full line modules, flexible manufacturing, and customized automation equipment. The company passionately delivers.

Woking, UK, February 3, 2023 - Linde (NYSE:LIN; FWB:LIN) announced today it had another record year for new small on-site projects during 2022. Linde signed 52 new small on-site projects for the supply of nitrogen and oxygen, a 21% increase compared with 2021. The increase was largely driven by. Where is Liane equipment located?

Liane Equipment is headquartered in Shenzhen, and owns a number of subsidiaries including Shenzhen Liane Semiconductor, Shenzhen Lianpeng Intelligent, Dongguan Lianpeng, Hengyang Liane, Suzhou Lianpeng, and Chengdu Liane Equipment S.R.L (Romania).

How much did Liane equipment invest?

Liane Equipment invested RMB 13 million in 2012 to establish the "Shenzhen Display Automation Equipment Engineering Technology Research and Development Center", and in 2016, invested over 14 RMB million to establish the "Shenzhen AMOLED and Flexible Display Module Process Key Technology Engineering Laboratory.

Who is Liane automation equipment?

Headquartered in Shenzhen, Liane Automation Equipment proudly maintains subsidiaries including Shenzhen Liane Semiconductor, Shenzhen Lianpeng Intelligent, Dongguan Lianpeng, Hengyang Liane, Suzhou Lianpeng, Chengdu Liane, and LIANDE EQUIPMENT S.R.L (Romania), with registered capital

exceeding RMB 178 million.

What is Liande equipment doing in China 2025?

Innovation and R&D are a solid foundation for the battle of the "Made in China 2025" strategy Liande Equipment invested RMB 13 million in 2012 to establish the "Shenzhen Display Automation Equipment Engineering Technology Research and Development Center", and.

What is Liande mini/micro-LED full-process technology?

Liande's Mini/Micro-LED full-process technology delivers complete manufacturing capabilities sorting, wafer expansion, inspection, mass transfer, die bonding, and reworks processes. The system achieves internationally leading standards in mass transfer speed and precision, with alignment accuracy of  $\pm 15\mu\text{m}$  and transfer yield rate reaching 99.9999%.

### Extending the Reach of the Hydrogen Value Chain

Our Schalchen site in Germany specializes in cryogenic equipment for H<sub>2</sub>. Our experts engineer and build state-of-the-art components to support all steps in the value chain, extending from ...

### Clean Energy

We are actively contributing to the widespread adoption of clean energy and significantly cutting emissions through hydrogen & carbon capture, utilization and sequestration solutions.

### Leading global industrial gases and engineering ...

A leading global industrial gases and engineering company committed to making our world more productive and sustaining our planet in virtually every branch of industry, commerce, science and research

### Innovative technology

As China's pioneering developer of 100-inch ultra-large format bonding equipment, "Liane Equipment" has achieved a quantum leap in process sophistication and technological prowess through strategic partnerships ...

A Linde Company

Sustainably Meeting the Demands of Tomorrow  
 Energy Applications Improvements range from producing lower carbon liquefied natural gas (LNG) and removing sulfur from gasoline and ...

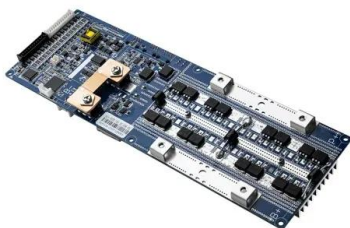

**Leading global industrial gases and engineering ...**

Linde is a leading global industrial gases and engineering company committed to making our world more productive and sustaining our planet with high-quality solutions, technologies and services

Linde Energy Solutions

Whether you need to revamp fleet-wide power, or simplify taking your electric forklift to remote facilities, Linde Energy Solutions can help take your operation into the future - and protect you with the most flexible warranties ...

## Storing Hydrogen in Underground Salt Caverns

Linde provides technology for storing hydrogen above ground and also underground in storage caverns as a backup to pipeline networks. Explore more.

## About us

"Linde Equipment" has pioneered core technologies across four strategic sectors: semiconductor displays, intelligent automotive cockpit systems, advanced semiconductor encapsulation & test, and new energy solutions.

## Plants, terminals and equipment for the entire LNG value ...

Cryogenic equipment and packaged units  
 Cryostar: Equipment and expertise for industrial gas, LNG, hydrocarbons and clean energy  
 Cryostar: Turbo expanders for cold production and ...

## Plants, terminals and equipment for the entire LNG value ...

Cryogenic equipment and packaged units  
 Cryostar: Equipment and expertise for industrial gas, LNG, hydrocarbons and clean energy  
 Cryostar: Turbo expanders for cold production and ...

## Li-ION technology from Linde

In addition, operating forklifts and warehouse handling equipment with this technology is significantly more energy-efficient, which means that less energy is consumed to achieve the same overall output. Extended Life ...

## **Energy Storage, Electronics and Manufacturing Drive Record ...**

The increase was largely driven by growing demand for next-generation energy storage, such as lithium-ion batteries. Linde also saw continued strong demand from traditional ...

## **Shenzhen Liande Automation Equipment Co., Ltd.**

Delivering complete end-to-end solutions to customers in semiconductor displays, intelligent automotive cockpits, semiconductor encapsulation and test, and Green Energy.

## Hydrogen , A Linde Company

Proven, Long-Standing Expertise Linde is the only company to cover every step in the hydrogen value chain from production and processing through distribution and storage to everyday industrial and consumer applications. ...

## Hydrogen , A Linde Company

Hydrogen Production Linde has been harnessing the power of hydrogen for over 100 years and is the global leader in the production, processing, storage, and distribution of hydrogen. ...

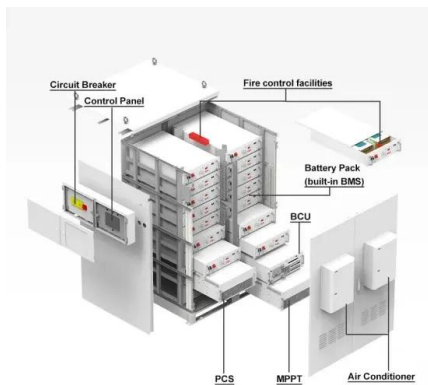

## Cutting-Edge Hydrogen Solutions , Linde Engineering

We have both the technologies and equipment to efficiently transport both gaseous and liquid hydrogen to its destination or to store it until needed. Building on our long-standing expertise in ...

## Electrolysis for Green Hydrogen Production , Linde

Electrolysis for Green H<sub>2</sub> Production Whether as a zero-emission fuel for mobility, a carbon-neutral industrial feedstock, a vector for renewable energy or a storage medium to buffer ...

## Decarbonization Processes for Industry , A Linde ...

Linde Green(TM) atmospheric gases and low carbon intensity (CI) hydrogen increase productivity, lower costs and reduce emissions through decarbonization in a variety of industries.

## Shenzhen Liande Automation Equipment Co., Ltd.

Shenzhen Liande Automation Equipment Co., Ltd. offering complete end-to-end solutions to customers in semiconductor displays, intelligent automotive cockpits, semiconductor encapsulation and test, and Green ...

## Talent Union science and technology innovation development

The top of the main structure of the "Liane Building" invested by "Liane Equipment" kicked off the ceremony, "Liane Building" with light and agile posture and blue sky ...
