Mx4 can be plugged in

Overview

Can the Sony wh-1000xm4 be connected to a PC?

The Sony WH-1000XM4 headphones are renowned for their exceptional wireless performance, but they can also be connected to a PC using a cable for those who prefer a wired connection.

Does the XM4 have a USB-C connection?

The XM4 have a USB-C connection, but that's purely for charging. For wired listening, there's a 1.2m audio cable supplied in the box that can be plugged into the right ear cup's 3.5mm headphones jack and into your device's 3.5mm output socket. For use during a flight, there is also a plug adaptor supplied to use the in-flight entertainment.

How do I connect my XM4 to the console?

If you're finding there is a lag issue over a wireless connection, you can always wire the XM4 to the console by plugging them into the 3.5mm jack at the bottom of the DualSense controller (using the supplied audio cable boxed with the headphones).

Why are my wh-1000xm4 headphones not working?

Check your device's connection again and ensure the WH-1000XM4 headphones are selected as the audio output. Finetune the volume on the device and your headphones. The issue may sometimes be particular to a specific file or app. Therefore, play a different audio source. You may also consider updating your headphones' firmware.

How do I connect multiple devices to my wh-1000xm4?

Go to Settings and then Device Connection. Click on Bluetooth and then WH-1000XM4. Choose "Connect to 2 Devices Simultaneously" to activate the multipoint mode. Open your second device and turn on Bluetooth. Search and select WH-1000XM4 and follow the on-screen prompts for pairing. That's all it

takes to pair multiple devices with your headphones!.

Do XM4 headphones need battery life?

For use during a flight, there is also a plug adaptor supplied to use the in-flight entertainment. The XM4 don't need battery life to listen to wired, though they do to be able to deploy the noise canceling function. When charging, press the power and Custom buttons at the same time to completely reset the headphones.
