Original report on us energy storage monitoring

Overview

What is the US energy storage monitor?

The US Energy Storage Monitor is offered quarterly in two versions- the executive summary and the full report. The executive summary is free, and provides a bird's eye view of the U.S. energy storage market and the trends shaping it.

What is the new US energy storage monitor Q2 2025?

The report provides industry professionals with actionable and intelligent insights to better inform business decisions. The new US Energy Storage Monitor | Q2 2025 was released June 25. Executive Summary: The executive summary is complementary to ACP members and the public. Press Release: Read the press release.

What is the energy storage executive summary?

The executive summary is complimentary to member companies and provides a bird's eye view of the U.S. energy storage market and the trends shaping it. Energy storage is a critical energy resource with the unique ability to serve as generation, load, and transmission. © 2025 American Clean Power Association.

Where can I find energy storage industry data?

It is available individually each quarter or as part of an annual subscription. The quarterly reports from the Energy Storage Association and Wood Mackenzie Power & Renewables (formerly GTM Research) are routinely cited by hundreds of media outlets as the authoritative source of energy storage industry data.

What is the best source of energy storage data?

The quarterly reports from ACP and Wood Mackenzie are routinely cited by hundreds of media outlets as the authoritative source of energy storage

industry data.

What resources are available for energy storage?

The following resources provide information on a broad range of storage technologies. General Battery Storage, ARPA-E's Duration Addition to electricitY Storage (DAYS), HydroWIRES (Water Innovation for a Resilient Electricity System) Initiative

Original report on us energy storage monitoring

US storage installations increased 33% in 2024 finds Wood ...

The US energy storage market set a new record in 2024 with 12.3GW of installations across all segments, according to the US Energy Storage Monitor report released ...

REPORT: Energy Storage Market Continues Strong Growth in Q1 ...

HOUSTON/WASHINGTON, D.C. June 25, 2025 -- According to the new U.S. Energy Storage Monitor developed by Wood Mackenzie and the American Clean Power ...

US marks record year for energy storage installations

Meanwhile, BESS installations across the country are projected to rise by 25% this year -- with grid storage installations forecast to hit 13.3 GW -- according to the US ...
