Outdoor portable energy storage ranking

Overview

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. ↓ [Jump to the Rest of the Field](#) ↓ [What to Know Before Purchasing a Portable Power Station](#).

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

How long does a portable power station last?

A portable power station's lifespan depends on the type of battery inside. Most new portable power stations, including all the models we recommend here, feature LiFePO4 battery technology, which lasts far longer than older lithium-ion technology. How much more?

LiFePo4 power stations will last for more than 3,000 charge cycles, or about 10 years.

Are portable power stations safe?

Portable power stations offer a safe, quiet, and eco-friendly alternative to gas generators. They're invaluable during blackouts, natural disasters, or off-grid adventures. With multiple output types, they charge everything from

smartphones to refrigerators. Are portable power stations a good choice for solar panels?

Yes.

Are portable power stations a good backup power source?

Portable power stations are excellent emergency backup power sources, and these are the best options on the market, as tested by CNET experts. Article updated on July 2, 2025 at 4:15 AM PDT Sq. Feet of Lab Space CNET staff -- not advertisers, partners or business interests -- determine how we review products and services.
