# Rental energy storage services

## Overview

---

Should you rent a battery energy storage system?

Renting a Battery Energy Storage System from Sunbelt Rentals is a smart choice for your business and your bottom line. Owning this equipment can tie up capital and reduce your business's ability to react to changing market conditions.

What is a battery energy storage system?

Our fleet of battery energy storage systems (BESS) for rent are designed to store and provide power when you need it most on the jobsite. When you require an industrial energy solution for your construction site, plant or event, these energy storage systems provide silent, efficient temporary power at several different outputs.

Do you need an industrial energy storage system?

When you require an industrial energy solution for your construction site, plant or event, these energy storage systems provide silent, efficient temporary power at several different outputs. Get these exclusive online rates by renting through our website or app.

Does mynu energy sell battery storage & power solutions?

MyNu Energy offers a range of options to buy battery storage and power solutions. We sell a storage capacity not just a battery. If your leased battery storage reduces over time no problem we will add or upgrade the battery module to maintain the contracted energy storage.

## Rental energy storage services
