Ruopu energy storage

Overview

Who is ruipu energy?

According to the data, Ruipu Energy, founded in 2017, is the first enterprise to invest in the new energy field with Qingshan Industry combined with its own rich mineral resources. The company is mainly engaged in power / energy storage lithium-ion battery monomer to system application research and development, production and sales.

How did ruipu energy perform in 2021?

In terms of performance, in 2021, Ruipu Energy sales revenue was about 2.4 billion yuan, an increase of 100% over the same period last year, delivering nearly 4GWh batteries, of which the passenger car sector delivered nearly 1.8GWh and served the global energy storage market close to 1.5GWh.

Will ruipu energy reach 200gwh capacity by 2025?

In terms of capacity construction, Ruipu Energy aims to reach 200GWh capacity by 2025. The company has built Wenzhou manufacturing base and Shanghai R & D center two major bases, the production capacity has reached 26Gwh.

Why did ruipu energy change its name?

On April 11, lithium battery manufacturer Ruipu Energy issued a notice to change its name. according to the development needs of the company and approved by the competent authority, on April 7, 2022, the name of the company has been formally changed from "Ruipu Energy Co., Ltd." to "Ruipu Lanjun Energy Co., Ltd.".

Does ruipu energy own Yongqing technology?

Ruipu Energy currently has a major shareholder in Yongqing Technology Co., Ltd., with a shareholding ratio of 71.76%, which is a subsidiary of Castle Peak Industry. According to data disclosed by Qingshan, its nickel ore production

will reach 600000 tons in 2021, 850000 in 2022, and plans to reach 1.1 million tons by 2023.
