Sanfeng environmental energy storage

Overview

Sanfeng's battery storage systems utilize lithium-ion technology, renowned for their high energy density and longevity. This technology enables customers to maximize stored energy, significantly reducing reliance on fossil fuels. Who owns Sanfeng environment?

It is mainly held by local and central state-owned enterprises including Derun Environment, CITIC Group, Chongqing Water & Environment and China Cinda Assets. Sanfeng Environment was the first to introduce and absorb German Martin WTE technology, and took the lead to realize the locally manufacturing of the complete process line equipment in China.

How can Sanfeng Covanta improve domestic waste management?

Through technological improvement and re-innovation, the technological system invented by Sanfeng Covanta can better adapt to the characteristics of domestic waste, reduce project investment costs, and promote the development of the domestic WTE industry.

Is Suez a strategic partner for Chongqing Sanfeng environment?

According to Gaoshang Liao, Chairman of Chongqing Sanfeng Environment, "SUEZ, a global leader in environmental services renowned for its cutting-edge technology and exceptional services, stands as a vital strategic partner for Chongqing Sanfeng Environment.
